We no longer live in the age of acceptance, we question the normal and challenge how things are done. Settling for good enough is not in our lexicon. In our pursuit to reach music to all, it requires sometimes the audacity to start from square one. It is this dissatisfaction with the status quo that drives Generation Now music lovers, and us as Brand Infinity. At Infinity, we push beyond the comfort zone to create products that defy convention and drive sound forward

WHERE MUSIC NEVER STOPS

The engineers behind brand Infinity live with their ears tuned to hear the voices of the future. Voices that are taking shape, voices that challenge status quo and Music that goes beyond boundaries. We go beyond our background in science and channel our obsession and passion into endless experimentation, that results in products that fundamentally alter the way the world experiences sound. We recognize that the choice of sound is anything but constant. Infinity's Dual EQ is a treat to the ears, enhancing various moods and nuances of music. The Deep Bass brings alive your music playlist.

LET THE BEAST ROAR
